What is the Local Control and Accountability Plan (LCAP)? (Revised January 8, 2018)

The LCAP is intended as a comprehensive planning tool to support student outcomes and is an important component of the LCFF. Under the LCFF, all **LEAs including school districts, COEs, and charter schools are required to prepare an LCAP**, which describes how they intend to meet annual goals for all pupils, with specific activities to address state and local priorities identified pursuant to *EC* sections 52060(d), 52066(d), and 47605.

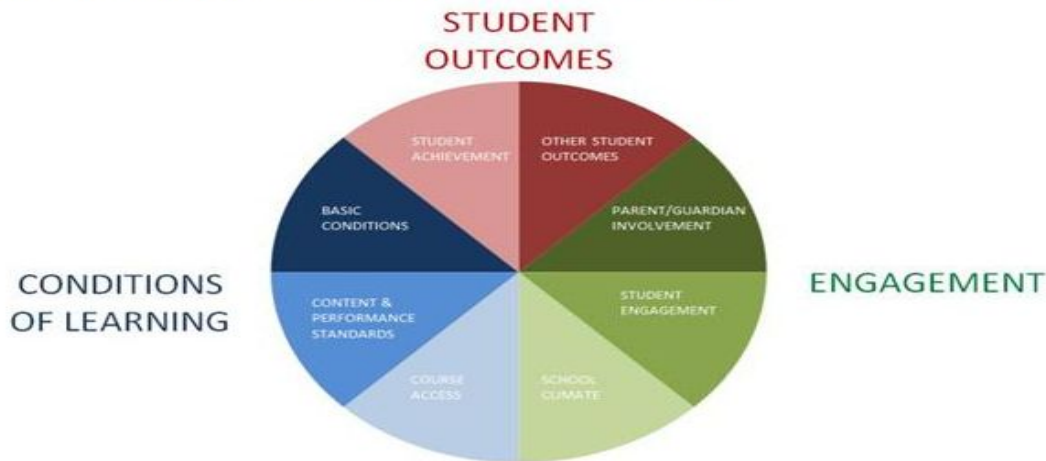

Background Information LCAP

Local Control and Accountability Plan

The governing board of each school district shall adopt a Local Control and Accountability Plan (LCAP) using a template adopted by the State Board of Education. The LCAP adopted by the governing board of a school district shall be effective for a period of three years, and shall be updated on or before July 1 of each year. The LCAP shall include 1) A description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to Education Code Section 52052, to be achieved for each of the eight state priorities (identified below) and for any additional local priorities identified by the governing board of the school district; and 2) a description of the specific actions the school district will take during each year of the LCAP to achieve the goals.

Eight state priorities established by California Education Code Section 52060:

The LCAP is a requirement of the 2013 California K-12 funding model, the Local Control Funding Formula (LCFF). [LCFF Frequently Asked Questions](#).

Background Information LCAP

- LCFF funds: LCFF is funded through a combination of local property taxes and state aid, State aid is distributed through the Principal Apportionment. District administration developed the LCAP

How are “unduplicated pupils” defined for purposes of calculating supplemental and concentration grant amounts? (Revised 04-Dec-2015)

Supplemental and concentration grant amounts are calculated based on the percentage of “unduplicated pupils” enrolled in the LEA on Census Day (first Wednesday in October) as certified for Fall 1. The percentage equals:

- Unduplicated count of pupils who (1) are English learners, (2) meet income or categorical eligibility requirements for free or reduced-price meals under the National School Lunch Program, or (3) are foster youth. “Unduplicated count” means that each pupil is counted only once even if the pupil meets more than one of these criteria (*EC* sections 2574(b)(2) and 42238.02(b)(1)). Divided by total enrollment in the LEA (*EC* sections 2574(b)(1) and 42238.02(b)(5)).

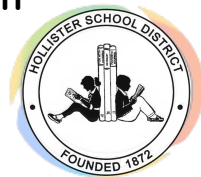

Background Information LCAP

- Q. Does a district have to spend the additional funds it receives on high-needs students?
- A. The law gives districts flexibility to spend their base grants as they choose. But districts must use the additional state funds—the supplemental and concentration grants—“to increase or improve services in proportion to the increase in funds” they receive for students targeted for extra money. If high-needs students are the majority, districts can use the additional money for districtwide purposes, such as extending the school day, but they must explain how the spending will principally benefit high-needs students.
- Q: How is the California School Dashboard related to LCFF and the LCAP?
- A: Rather than judging schools on a single test score, the Dashboard provides information about how local educational agencies and schools are meeting the needs of California’s diverse student population based on a set of multiple state and local measures. The Dashboard features easy-to-read reports on multiple measures of school success, including test scores, graduation rates, English learner progress, and suspension rates.
